

Moisture Meter

FEATURES

- Specifically designed for measuring wood moisture, Has four calibration scales enabling the user to take accurate moisture measurements in 100 wood species
- Large LCD display for easy reading
- Operating principle: Electrical resistance
- Functions: On/Off, low battery indicator, hold button, mode button to select wood group
- Integrated measuring electrode pins
- Auto power off
- Power supply: One 9V battery
- Operating temp.: 0-40°C
- Weight: 110g (not including battery)
- Dimensions: 140mm(L) x 65mm(W) x 35mm(T)

SPECIFICATIONS & DIMENSIONS

Order No.	Range (Wood)	Resolution	Accuracy (\pm)
MT 10	0~99.9%	0.1%	0.5%
